Hello. I am Tarek and I am a student a East side preparatory school. For a project I remade your website and would like to share it with you if you would like to use it. Your website did a good job on organization and spacing. To improve It I tried to make a different color scheme and layout. Here is the website link :<http://127.0.0.1:5500/home%20pages/index.html>
Would you use my code please respond if you would.

Thank you.

Tarek
